**Subject:** Sims Metal Management -- Request for Extension of Time

Hi, Rich – it's been awhile and I hope this finds you well.

According to the currently agreed upon schedule, Sims' Sediment Investigation Report for Redwood City is due on April 29. However, during implementation of the Phase II SSAP, Terraphase encountered field delays due to severe weather and equipment unavailability, totaling approximately 30 days. The draft report is in progress, but we would very much appreciate a one-month extension of the submittal date. The additional time is needed to complete work on the report and to accommodate the business and vacation schedules of the numerous people involved in the project on behalf of Sims. We will endeavor to submit the report as soon as possible, but are respectfully requesting an extension to May 31.

Thank you for your consideration, Meg
